

2020-2021 Stem Cell Seminar Series
All Lectures 11:00am - 12:00pm

Zoom information will be provided

Matt Inlay, PhD

University of California,
Irvine

*Hematopoietic stem cells:
from embryonic origins to
therapeutic use*

Friday, Feb. 5, 2021

Laura Suggs, PhD

University of Texas at Austin
Host: Lisa Flanagan, PhD

*Inflammatory modulators in
adult stem cell therapy*

Friday, Mar. 5, 2021

**Shoukhrat Mitalipov,
PhD**

Oregon Health & Science
University
Host: Peter Donovan, PhD

*SCNT and its applications in
reproduction*

Friday, Mar. 12, 2021

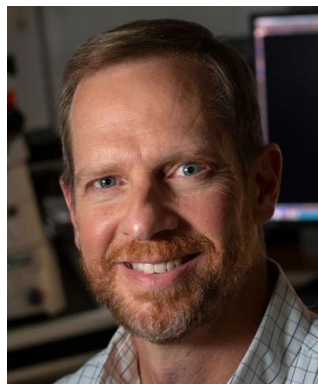

**Randolph Ashton,
PhD**

University of Wisconsin —
Madison

*Human pluripotent stem
cells to derive, regenerate
& engineer tissues*

Friday, Apr. 2, 2021

David Gamm, MD, PhD

University of Wisconsin School
of Medicine & Public Health
Host: Magdalene Seiler, PhD

*Assessing the potential for
outer retina reconstruction*

Friday, May 7, 2021
