

Summer Series on Mass Cytometry

A webinar series hosted by UCI Stem Cell Research Center

High-dimensional single-cell analysis has become critical to basic and clinical research. The Helios™, a CyTOF® system permits the analysis of 40+ unique targets on a per-cell basis enabling unparalleled insight into both the phenotype and function of many cell populations in a single tube. Additionally, barcoding for Mass Cytometry allows combining up to 20 samples in one tube for increased efficiency, eliminating sample to sample variation.

Introduction to Mass Cytometry. Monday, July 19th 11:00 am – 12:00 pm

[Click here to register!](#)

Getting Started: Panel Building Discussion. Monday, August 16th 11:00 am - 12:00 pm

[Click here to register!](#)

Workshop: Antibody titration methods. Monday, September 13th 11:00 am- 12:00pm

[Click here to register!](#)

Office Hour: Open Q&A Session- Monday, September 20th 11:00 am - 12:00 pm

[Click here to register!](#)

Presenter:

Connie Inlay, PhD

Field Applications Scientist

connie.inlay@fluidigm.com

After registering, you will receive a confirmation email containing information about joining the meeting. For questions, email Vanessa Scarfone at vanessa.s@uci.edu
